Services au sol - Ground handling

"We are very pleased to work with e-Cargoware and it was given to select FR8Manage – Handling as a very intuitive application to use. e-Cargoware have also showed us how agile and flexible they are and a supportive software partner. As TSAS launches new cargo handling operations at Quebec International Airport, we feel that with the support from the e-Cargoware team both in here in Canada, Europe, and India, we are in very safe hands". e-Cargoware Group based upon the recent wins in the Americas have decided to open operations in Toronto, Canada and by that confirming its growth plans into the Americas. More announcements will follow with updates on expected milestones for the growing innovative software company.

CEO of e-CARGOWARE, Ramesh Darbha commented

e-CARGOWARE
the {digital} freight future

"We are delighted to welcome TSAS to the growing family of e-Cargoware clients. With the go live of FR8Manage – Handling at Quebec International Airport we continue our expansion plans into the Americas. It fits perfectly to expand our footprint to add operations in Toronto, Canada as stepping-stone to support our expansion plans into the Americas.".

About e-CARGOWARE

e-CARGOWARE is a software company founded by Arun Singh and Ramesh Darbha with the foresight to provide an easy to use, cost-effective logistics solutions wholly based on cloud technology.

With a worldwide customer base, this SaaS platform helps Airlines, GSAs, GHAs, couriers and freight forwarders effectively manage their cargo business from booking through to revenue accounting and beyond.

The company's vision is to be on the cutting edge of technology and develop services which entail the usage of Artificial Intelligence and Machine Learning features.
